

Hillsborough

WINERY ♦ BREWERY ♦ VINEYARD

Parking Protocols

Dated: March 2021

- Applicable to all large vehicles, including large vans, buses, and limousines.
- After entering and driving up the driveway, please drop your guests off at the entrance which features the welcome sign at the top of the driveway before you pass the main Tasting Room building.
- Please take care to not block the entrance from other visiting guests arriving from their vehicles as this drop-off point is in the middle of our main parking lot.
- Upon safe drop-off, please proceed past the Tasting Room building on your right and the main house on your left, and continue down to the winery/brewery parking lot (the buildings with the silo and large 'H' logo on the wall).
- You may park here while you wait for your guests OR turn around to continue back to the overflow parking by the driveway entrance by Route 9.
- There is no parking permitted on the grassy area's behind the Tasting Room building.
- The winery/brewery parking lot and the overflow parking lot are the only places you may park over-sized vehicle as the other outlined parking spaces are too small and designated for smaller-passenger vehicles.
